Independence National Historic Park  
Philadelphia, USA

Independence National Historical Park (INHP) located in the heart of Philadelphia, PA, is often thought of as the birthplace of the United States. The Liberty Bell is located here, as well as Independence Hall where both the Constitution and the Declaration of Independence were drafted. A \$314 million reconstruction project is underway that is dramatically transforming the look and feel of this great historical park complex. Ritorno fixtures met the exacting specifications and criteria in terms of aesthetics, lighting appropriateness, maintenance, and estimated cost efficiencies for the life of the product. area.

## Ritorno

---

Ritorno is an elegantly designed pole-top or wall-mounted secondary reflector luminaire, which comes in three different versions. The fixture offers exceptional uniformity and outstanding glare control characteristics plus a self-cleaning reflector. The discreet design allows the observer to focus on its graceful light reflections. The Ritorno family is a high quality range of indirect luminaires for pathways, building courtyards, airports and parks and general site lighting applications.
